

41. AB5* and linear compactness, *J. Algebra* **200** (1998), 99-117
   (with D. Herbera and C. Menini).

42. A note on selfdual modules and Dedekind rings, *J. Pure Appl. Algebra* **133** (1998),
   23-25.

43. AB5* for module and ring extensions, in: *Abelian groups, module theory, and topology*,
   (with D. Herbera and C. Menini).

   (with D. Herbera and C. Menini).

   (with D. Herbera and C. Menini).

48. Some ultramatricial algebras which arise as intersections of Leavitt algebras,

   (with M. Siddoway).

   3967 –3992 (with L. Márki and P. Vámos).

   (with L. van Wyk).
