

CURRICULUM VITAE

Gábor Elek

Education

| | | |
|--|--------------------|----------|
| Purdue University, West Lafayette, Indiana, USA, 1990-1996 | PhD in Mathematics | May 1996 |
| Eötvös University, Budapest, Hungary, 1982-1987 | MA in Mathematics | May 1987 |

Employment

| position | place | started |
|-----------------------------|------------------------|-----------------|
| Professor | Lancaster University | September, 2013 |
| Scientific Advisor | Alfred Renyi Institute | June, 2010 |
| Research Fellow | Alfred Renyi Institute | Sept 1996 |
| Graduate Teaching Assistant | Purdue University | Sept 1989 |

Longer visits

- EPFL Lausanne, 1 month in 2015
- EPFL Lausanne, 2 years 2011-2013
- Mittag-Leffler Institut, Djursholm, Sweden 1 month in 2012.
- Microsoft Research Theory Group, Redmond, USA 1 month in 2007.
- University of California at Riverside, USA 4 months 1999-2001
- Institut de Hautes Études Scientifique (IHES) France, 1 month in 1998, 1 month in 2005.

Grants

- Marie Curie Fellowship 2011-2013.
- Several Hungarian Scientific Research Grants
- Bolyai Scholarship 1998-2001.

Awards

- The Doctor of the Hungarian Academy of Science (Dr.Sc) (2010)
- Rényi Prize (2009)
- Young Researcher Award of the Hungarian Academy of Sciences (1998)

Selected Invited Talks

- MAXIMALS Seminar, Edinburgh (2017)
- Algebra, Logic and Algorithms Seminar, Leeds (2017)
- Algebra Seminar, Manchester (2017)
- Group Theory Seminar, Madrid (2016)
- Colloquium Talk, Neuchatel (2016)
- NWDR Workshop, Bielefeld (2016)
- Measured Group Theory, Vienna (2016)
- IST Seminar, Vienna (2016)
- QOP Meeting, Leeds (2015)
- Asymptotic Invariants of Groups, Oxford (2015)
- Analysis Seminar, Glasgow (2014)
- Colloquium Talk, Warwick (2014)
- Algebra-Geometry Seminar, Newcastle (2013)
- Algebra Seminar, Oxford (2013)
- Arbeitsgemeinschaft, Oberwolfach (2013)
- Graph Theory Workshop, Oberwolfach (2013)
- Masterclass on Sofic groups, Copenhagen (2012)
- Graphs and Analysis, Princeton, Institut for Advanced Study (2012)
- Workshop on Connes Embedding Conjecture, Neuchatel (2012)
- Invariant Random Subgroups, Sde Boker, Israel (2012)
- Geometry Seminar, ETH Zurich (2011)
- Special Lecture, Hausdorff Center, Bonn (2011)

-
- Finite-dimensional approximations of discrete groups, Oberwolfach (2011)
 - Groups, graphs and stochastic processes, Banff, Canada (2011)
 - Geometry/Topology Seminar, University of Chicago (2011)
 - Group action on measure spaces. Texas A & M University (2011)
 - Workshop on residually finite groups, profinite actions and graph limits, Oberwolfach (2010)
 - Colloquium Talk, EPFL, Lausanne (2010)
 - Colloquium Talk, University of Geneva (2010)
 - Workshop on von Neumann algebras and group actions, Copenhagen, Denmark (2010)
 - Midrasha Conference, Jerusalem, Israel (2009)
 - Combinatorial Section, III-rd Latin American Congress, Santiago de Chile (2009)
 - Workshop on Property Testing, Rutgers University, USA (2009)
 - Workshop on the Connes Embedding Problem, Fields Institute, Ottawa, Canada (2008)
 - AMS Meeting on Graph Theory, IMPA, Rio de Janeiro, Brazil (2008)
 - Limits of graphs in group theory and computer science, EPFL, Lausanne, Switzerland (2007) (minicourse of 5 talks)
 - Amenability beyond groups, Erwin Schrödinger Institute, Vienna, Austria (2007) (minicourse of 5 talks)
 - ETZH-Zurich, FIM talk (2007)
 - Invited talk at Microsoft Research Group, Redmond, USA (2007)
 - Workshop on Large Graphs, Rutgers University, USA (2006)
 - Colloquium Talk, La Sapienza University, Rome (2006)
 - Oberwolfach Mini-workshop on L^2 -invariants (2006)
 - Colloquium Talk, University of Geneva (2005)
 - Geometric Group Theory Colloquium, Orsay, France (2005)
 - International Conference on Group Theory, Gaeta, Italy (2003)
 - Colloquium Talk, University of Barcelona (2002)

-
- Congress of the American and the French Mathematical Societies, Lyon (2001)
 - Colloquium Talk, University of California at Riverside (2000)
 - Joint Meeting of the AMS, San Antonio (1999)
 - Colloquium Talk, Oxford University Math. Institute (1998)
