PUBLICATION AND CITATION   LIST OF ENDRE MAKAI, JR.

E. Makai: Notes on real closed fields, Annales Univ. Sci., Budapest 13(1970), 35-55.

+   V.G. Pestov: Trans. Amer. Math. Soc., 350(1998), 4149-4165.
+   G. G. Pestov, On the theory of sections in ordered fields. (Russian) Sibirsk. Mat. Zh. 42
          (2001), no. 6, 1350--1360, iii; translation in Siberian Math. J. 42 (2001), no. 6,
1123–1131
+   N.Y. Galanova, Acta Applicandae Math. 85 (2005), 121-126

E. Makai: The space of bounded maps into a Banach space, General Topology and its Relations to Modern Analysis and Algebra III., Proc. III. Prague Top. Symp., 1971, 289.

E. Makai: The space of bounded maps into a Banach space, Publ. Math., Debrecen 19(1972), 177-179.

+   E. Makai: General Topology and its Relations to Modern Analysis and Algebra III., Proc.
          III. Prague Top. Symp., (1971), 289.
+   K.S. Lau: PACIFIC JOURNAL OF MATHEMATICS, 60(1975), 229-233.
+   E. Makai: Coll. Math. Soc. J. Bolyai 23, Topology, Budapest, (1978), 815-825.
+   E. Makai: Publ. Math., Debrecen, 28(1-2)(1981), 189.

E. Makai: Compactifications and a dual of compact spaces, Stud. Sci. Math. Hung., 7(1972), 199-200.

E. Makai: On centrosymmetric convex domains with a packing density independent of the direction, Stud. Sci. Math. Hung., 7(1972), 423-424.

+   G. Fejes Tóth: Convexity and Applications (Eds. P. M. Gruber, J. M. Wills), Birkhauser,
          Basel etc., könyv, (1983), 318.

E. Makai: A goniometric inequality, Publ. Elektrotehn. Fak. Univ., Beograd, 408(1972), 139-142.

E. Makai: Síkbeli halmazok kisebb részekre osztása, (Subdivision of planar sets to smaller parts, Hungarian), Mat. Lapok, 23(1-2)(1972), 129-133.

E. Makai: On the geodesic diameter of convex surfaces, Period. Math. Hung., 4(2-3)(1973), 157-161.
+   C. Bandle, Convexity and its Appls, 1983, 30-48
+   Yu. D. Burago, U.A. Zalgaller: Geometric inequalities, Springer, Berlin, könyv, 1988.
+   E. Heil, H. Martini: Special convex bodies, Handbook of Convex Geometry, eds. P.M. Gruber, J.M. Wills, 1993, Elsevier, Ch.1.11, 347-385
+   J. Krysiak, Z. McCoy, Preprint, 2004, http://www.math.psu.edu/mass/reu/2004/projects/p.pdf
